## Decision

What decision are you trying to make? In other words, what balance are you trying to find?

## Natural Tendency

Check the box in the section below that resembles your normal operating condition

### Signals of Too Little

What consequences occur when you operate at this extreme... positive and negative!

### Signals of Lagom (Just enough)

What are the ideal outcomes when you do this just right?

### Signals of Too Much

What consequences occur when you operate at this extreme... positive and negative!

## Hypothesis

What action do you think will get you closer to lagom?

### Plan

- How will you test your hypothesis?
- How will you know if you are closer to lagom?
- When will you review?

### DO

### Study

- What do your success metrics tell you?
- Are you closer to lagom, farther away or the same distance?

### Adjust

Do you need to tweak the plan & continue or make a new hypothesis?
